FOURTH ORDER OF BUSINESS

New Business Items

A. Ratification of Change Order No. 4 for Old Kings Road

Mr. LeBrun stated that Item 4A was old business concerning the ratification of Change Order No. 4 for Old Kings Road. He noted the change order had already been reviewed by staff and the Board was being asked to ratify it.

On MOTION by Mr. Fife, seconded by Ms. Kiernan, with all in favor, Change Order No. 4 for Old Kings Road, was ratified.

FIFTH ORDER OF BUSINESS

Staff Reports

A. Attorney

Ms. Ligas had nothing to report.

B. Engineer

There being no comments, the next item followed.

C. Field Manager

i. Presentation of Waterway Management Proposal with Florida Waterways, Inc.

Mr. Gray recommended focusing on Florida Waterways and Lake Pros because their prices were close: Florida Waterways proposal was \$465 per month / \$5,580 per year.

ii. Presentation of Monthly Pond Maintenance Proposal with J & J Aquatics Specialist, LLC

Mr. Gray noted that J&J Aquatics was much more expensive because it included more frequent treatment and extra services, such as emergency visits and fish stocking.

iii. Presentation of Monthly Lake Maintenance Proposal with Lake Pros, LLC

Mr. Gray noted the Lake Pros proposal totaled \$490 per month / \$5,880 per year. The Board noted that J&J's proposal was more involved but likely unnecessary because there were not many residents yet, making the added cost a waste at the current stage. Mr. Gray stated they had used Lake Pros on other projects and were happy with their work, even though it was slightly more expensive.

On MOTION by Mr. Fife, seconded by Mr. Morisette, with all in favor, the Monthly Lake Maintenance Proposal with Lake Pros, LLC, was approved.

Mr. Gray reported that entry landscaping had started for the north project near the entry features and along the Old Kings Road buffer. Irrigation was already installed, but they were waiting for the county to provide a temporary meter before the plants could be installed.

The Board discussed using Yellowstone, which was already doing the installation, for ongoing maintenance as well. This would include maintenance of the buffer, the entry area, and the five ponds. Mr. Gray agreed to reach out to Yellowstone that day about the maintenance pricing.

SECTION 2

RESOLUTION 2026-10

[ANNUAL ASSESSMENT RESOLUTION]

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE RADIANCE COMMUNITY DEVELOPMENT DISTRICT MAKING A DETERMINATION OF BENEFIT AND IMPOSING SPECIAL ASSESSMENTS FOR FISCAL YEAR 2026/2027; PROVIDING FOR THE COLLECTION AND ENFORCEMENT OF SPECIAL ASSESSMENTS, INCLUDING BUT NOT LIMITED TO PENALTIES AND INTEREST THEREON; CERTIFYING AN ASSESSMENT ROLL; PROVIDING FOR AMENDMENTS TO THE ASSESSMENT ROLL; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Radiance Community Development District ("**District**") is a local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, for the purpose of providing, operating and maintaining infrastructure improvements, facilities and services to the lands within the District; and

WHEREAS, the District has constructed or acquired various infrastructure improvements and provides certain services in accordance with the District's adopted capital improvement plan and Chapter 190, *Florida Statutes*; and

WHEREAS, the Board of Supervisors ("**Board**") of the District has determined to undertake various operations and maintenance and other activities described in the District's budget ("**Adopted Budget**") for the fiscal year beginning October 1, 2026 and ending September 30, 2027 ("**Fiscal Year 2026/2027**"), attached hereto as **Exhibit A**; and

WHEREAS, Chapter 190, *Florida Statutes*, authorizes the District to fund the Adopted Budget through a funding agreement and/or through the imposition of special assessments on benefitted lands within the District, which special assessments may be collected by direct bill or on the tax roll pursuant to Chapter 197, *Florida Statutes*; and

WHEREAS, in order to fund the District's Adopted Budget, the District's Board now desires to adopt this Resolution setting forth the means by which the District intends to fund its Adopted Budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE RADIANCE COMMUNITY DEVELOPMENT DISTRICT:

1. FUNDING. As indicated in **Exhibits A and B**, the District's Board hereby authorizes the following funding mechanisms for the Adopted Budget:

- a. OPERATIONS AND MAINTENANCE DEFICIT FUNDING AGREEMENT.** The District's Board hereby authorizes a deficit funding agreement for certain of the operations and maintenance services set forth in the District's Adopted Budget, as set forth in **Exhibit A**.
- b. OPERATIONS AND MAINTENANCE ASSESSMENTS.**

- i. **Benefit Findings.** The provision of the services, facilities, and operations as described in **Exhibit A** confers a special and peculiar benefit to the lands within the District, which benefit exceeds or equals the cost of the assessments. The allocation of the assessments to the specially benefitted lands is shown in **Exhibits A and B**, and is hereby found to be fair and reasonable.
- ii. **Assessment Imposition.** Pursuant to Chapters 190, 197 and/or 170, *Florida Statutes*, and using the procedures authorized by Florida law for the levy and collection of special assessments, a special assessment for operation and maintenance is hereby imposed and levied on benefitted lands within the District and in accordance with **Exhibits A and B**. The lien of the special assessments for operations and maintenance imposed and levied by this Resolution shall be effective upon passage of this Resolution.

The Board finds and determines that operations and maintenance assessments shall immediately attach only to sold lots (as set forth in **Exhibits "A" and "B"**), and further that operations and maintenance assessments shall also attach on a pro-rated basis to any lots sold during Fiscal Year 2026/2027 at the time of sale, and as evidenced by an estoppel letter prepared by the District's Manager. All unsold lots owned by the developer do not receive the same level of benefit as sold lots and, accordingly, such lots shall not receive an operations and maintenance assessment for Fiscal Year 2026/2027. Instead, any additional costs of the District's Adopted Budget (above and beyond the operations and maintenance assessment that attaches to sold lots) shall be funded pursuant to a deficit funding agreement to be entered into between the District and the project developer.

- iii. **Maximum Rate.** Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments.

- c. **DEBT SERVICE SPECIAL ASSESSMENTS.** The District's Board hereby directs District Staff to effect the collection of the previously levied debt service special assessments, as set forth in **Exhibits A and B**.

2. **COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.**

- a. **TAX ROLL ASSESSMENTS.** If and to the extent indicated in **Exhibits A and B**, certain of the operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on the "**Tax Roll Property**" identified in **Exhibit B** shall be collected at the same time and in the same manner as County taxes in accordance with Chapter 197 of the *Florida Statutes*. The District's Board finds and determines that such collection method is an efficient method of collection for the Tax Roll Property.

- b. **DIRECT BILL ASSESSMENTS.** If and to the extent indicated in **Exhibits A and B**, certain operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on “**Direct Collect Property**” identified in **Exhibit B** shall be collected directly by the District in accordance with Florida law, as set forth in **Exhibits A and B**. The District’s Board finds and determines that such collection method is an efficient method of collection for the Direct Collect Property.

- i. *Due Date (O&M Assessments)* - Operations and maintenance assessments directly collected by the District shall be due and payable on the dates set forth in the invoices prepared by the District Manager, but no earlier than October 1st and no later than September 30th of FY 2027.

As noted above, operations and maintenance assessments shall attach to any lots sold during Fiscal Year 2026/2027 at the time of sale, and as evidenced by an estoppel letter prepared by the District’s Manager. Any such assessments shall be collected directly by the District in accordance with Florida law, and at the time of sale.

- ii. *Due Date (Debt Assessments)* - Debt service assessments directly collected by the District are due in full on December 1, 2026; provided, however, that, to the extent permitted by law, the assessments due may be paid in two partial, deferred payments and on dates that are 30 days prior to the District’s corresponding debt service payment dates all as set forth in the invoice(s) prepared by the District Manager.
- iii. In the event that an assessment payment is not made in accordance with the schedule(s) stated above, the whole assessment – including any remaining partial, deferred payments for the Fiscal Year, shall immediately become due and payable; shall accrue interest, penalties in the amount of one percent (1%) per month, and all costs of collection and enforcement; and shall either be enforced pursuant to a foreclosure action, or, at the District’s sole discretion, collected pursuant to the Uniform Method on a future tax bill, which amount may include penalties, interest, and costs of collection and enforcement. Any prejudgment interest on delinquent assessments shall accrue at the rate of any bonds secured by the assessments, or at the statutory prejudgment interest rate, as applicable. In the event an assessment subject to direct collection by the District shall be delinquent, the District Manager and District Counsel, without further authorization by the Board, may initiate foreclosure proceedings pursuant to Chapter 170, *Florida Statutes*, or other applicable law to collect and enforce the whole assessment, as set forth herein.

- c. **FUTURE COLLECTION METHODS.** The decision to collect special assessments by any particular method – e.g., on the tax roll or by direct bill – does not mean that such method will be used to collect special assessments in future years, and the

District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.

- d. **MAXIMUM RATE.** Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the “maximum rate” authorized by law for operation and maintenance assessments.

3. **ASSESSMENT ROLL.** The Assessment Roll, attached to this Resolution as **Exhibit “B,”** is hereby certified for collection. The District Manager is authorized to make amendments to the Assessment Roll to reflect changes in the County property appraiser’s records, or for other proper purposes.

4. **SEVERABILITY.** The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

5. **EFFECTIVE DATE.** This Resolution shall take effect upon the passage and adoption of this Resolution by the Board.

INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
Radiance Community Development District
Flagler County, Florida

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Radiance Community Development District, Flagler County, Florida ("District") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 29, 2026, on our consideration of the Radiance Community Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

We have also issued our report dated June 29, 2026 on our consideration of the District's compliance with requirements of Section 218.415, Florida Statutes, as required by Rule 10.556(10) of the Auditor General of the State of Florida. The purpose of that report is to provide an opinion based on our examination conducted in accordance with attestation Standards established by the American Institute of Certified Public Accountants.

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2025

The government-wide financial statements include all governmental activities that are principally supported by special assessment revenues. The District does not have any business-type activities. The governmental activities of the District include the general government (management) and maintenance and operations.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions.

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three individual governmental funds for external reporting. Information is presented in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and capital projects fund. All funds are major funds. The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities at the close of the most recent fiscal year. A portion of the District's net position reflects its investment in capital assets (e.g. land, land improvements and infrastructure). These assets are used to provide services to residents; consequently, these assets are not available for future spending. The remaining balance of unrestricted net position may be used to meet the District's other obligations.

Key components of net position were as follows:

Statement of Net Position

	2025	2024
Current assets	\$ 18,660,601	\$ 158,811
Capital assets	10,085,877	1,260,211

Unrestricted	<u>13,430</u>	<u>848</u>
Total net position	<u>\$ 8,454,781</u>	<u>\$ 1,280,596</u>

The District's net position increased during the most recent fiscal year. The majority of the change represents the degree to which program revenues exceeded ongoing cost of operations.

Key elements of the District's change in net position are reflected in the following table:

Change in Net Position

	2025	2024

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2025

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2025 was \$592,162, which consisted of cost of issuance, costs associated with constructed and maintaining certain capital improvements. The costs of the District's activities were funded by developer contributions.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2025.

The variance between budgeted and actual general fund revenues is considered significant. The actual general fund expenditures for the current fiscal year were lower than budgeted amounts due primarily to anticipated costs which were not incurred in the current fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At September 30, 2025, the District had \$10,085,877 invested in construction in process. Construction in process has not completed as of September 30, 2025 and therefore is not depreciated to date. Once projects are complete, items will transfer to depreciable assets. More detailed information about the District's capital assets is presented in the notes of the financial statements.

Capital Debt

At September 30, 2025, the District had \$17,219,763 Bonds outstanding for its governmental activities. More detailed information about the District's capital debt is presented in the accompanying notes to the financial statements.

ECONOMIC FACTORS, NEXT YEAR'S BUDGET AND OTHER INFORMATION

For the fiscal year 2026, the District anticipates that the cost of general operations will remain fairly constant. In connection with the District's future infrastructure maintenance and replacement plan, the District Board has included in the budget, an estimate of those anticipated future costs and has assigned a portion of current available resources for that purpose.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE A- NATURE OF ORGANIZATION AND REPORTING ENTITY

Radiance Community Development District ("District") was created on July 11, 2022 by the Board of County Commissioner of Flagler County, Florida Ordinance No. 2022-11 pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The majority of the Board members are affiliated with the Developer. The Supervisors are elected on an at large basis by the owners of the property within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes.

The Board has the responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing Improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District Board of Supervisors is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Operating-type special assessments for maintenance and debt service are treated as charges for services and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other Items not included among program revenues are reported instead as general revenues.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the economic financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on benefited lands within the District. Assessments are levied to pay for the operations and maintenance of the District. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. The District's annual assessments for operations are billed and collected by the County Tax Collector. The amounts remitted to the District are net of applicable discounts or fees and include interest on monies held from the day of collection to the day of distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Assessments (continued)

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest of long-term debt.

Capital Projects Fund

The capital projects fund accounts for the financial resources to be used for the acquisition or construction of major infrastructure with the District.

Assets, Liabilities and Net Position or Equity

Restricted Assets

These assets represent cash and investments set aside pursuant to contractual restrictions.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities and Net Position or Equity (continued)

Deposits and Investments (continued)

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition, surplus funds may be deposited into certificates of deposit which are insured.

The District records all interest revenue related to investment activities in the respective funds and reports investments at fair value.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities and Net Position or Equity (continued)

Capital Assets (continued)

In the governmental fund financial statements, amounts incurred for the acquisition of capital assets are reported as fund expenditures. Depreciation expense is not reported in the governmental fund financial statements.

Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities and Net Position or Equity (continued)

Fund Equity/Net Position

In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

Committed fund balance - Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned fund balance - Includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board can assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

The District first uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

Other Disclosures

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE C - BUDGETARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearings are conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) All budget changes must be approved by the District Board.
- e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) Unused appropriation for annually budgeted funds lapse at the end of the year.

NOTE D – DEPOSITS AND INVESTMENTS

Deposits

The District's cash balances, including certificates of deposit, were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

Investments

The District's investments were held as follows at September 30, 2025:

<u>Investment</u>	<u>Fair Value</u>	<u>Credit Risk</u>	<u>Maturities</u>
Fidelity Investments Money Market Funds - Government Portfolio	\$ 16,688,874	S&P AAAM	Weighted average of the fund portfolio: 36 days

NOTE D – DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Custodial credit risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The District has no formal policy for custodial risk. The investments listed in the schedule above are not evidenced by securities that exist in physical or book entry form.

Credit risk - For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration risk - The District places no limit on the amount the District may invest in any one issuer.

Interest rate risk - The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

Fair Value Measurement - When applicable, the District measures and records its investments using fair value measurement guidelines established in accordance with GASB Statements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques.

These guidelines recognize a three-tiered fair value hierarchy, in order of highest priority, as follows:

- Level 1: Investments whose values are based on unadjusted quoted prices for identical investments in active markets that the District has the ability to access;
- Level 2: Investments whose inputs - other than quoted market prices - are observable either directly or indirectly; and,
- Level 3: Investments whose inputs are unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market investments that have a maturity at the time of purchase of one year or less and are held by governments other than external investment pools should be measured at amortized cost. Accordingly, the District's investments have been reported at amortized cost above.

RADIANCE COMMUNITY DEVELOPMENT DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2025.

The variance between budgeted and actual general fund revenues is considered significant. The actual general fund expenditures for the current fiscal year were lower than budgeted amounts due primarily to anticipated costs which were not incurred in the current fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

To the Board of Supervisors
Radiance Community Development District
Flagler County, Florida

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Radiance Community Development District, as of September 30, 2025 and for the year ended September 30, 2025, which collectively comprise Radiance Community Development District's basic financial statements and have issued our report thereon dated June 29, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This report is intended solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION 218.415, FLORIDA STATUTES, REQUIRED BY RULE 10.556(10) OF THE
AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board of Supervisors
Radiance Community Development District
Flagler County, Florida

We have examined Radiance Community Development District, Flagler County, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2025. Management is responsible for District's compliance with those requirements. Our responsibility is to express an opinion on District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2025.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Supervisors of Radiance Community Development District, Flagler County, Florida and is not intended to be and should not be used by anyone other than these specified parties.

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Radiance Community Development District are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2025. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all material misstatements, if applicable. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 29, 2026.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

This information is intended solely for the use of those charged with financial oversight and management of Radiance Community Development District and is not intended to be and should not be used by anyone other than these specified parties.

SECTION VII

SECTION C

SECTION 1

LANDSCAPE & IRRIGATION SERVICES AGREEMENT

THIS AGREEMENT ("**Agreement**") is made and entered into to be effective as of the full execution of this Agreement:

RADIANCE COMMUNITY DEVELOPMENT DISTRICT, a local unit of special-purpose government established pursuant to Chapter 190, Florida Statutes, being situated in Flagler County, Florida, and having offices at c/o 219 East Livingston Street, Orlando, Florida 32801 ("**District**"); and

YELLOWSTONE LANDSCAPE, INC., a Delaware corporation, whose address is P.O. Box 849, Bunnell, Florida 32110 ("**Contractor**," and collectively with the District, "**Parties**").

RECITALS

WHEREAS, the District was established for the purpose of planning, financing, constructing, operating and/or maintaining certain infrastructure, including landscaping and irrigation; and

WHEREAS, the District has a need to retain an independent contractor to provide, for certain lands within the District, certain landscape and irrigation maintenance services; and

WHEREAS, to solicit such services, the District conducted a competitive proposal process based on a "Project Manual," and determined to make an award of a contract for landscape and irrigation maintenance services to the Contractor, based on certain proposal pricing provided by Contractor; and

WHEREAS, Contractor desires to provide such services, and represents that it is qualified to do so.

NOW, THEREFORE, in consideration of the mutual covenants contained in this Agreement, it is agreed that the Contractor is hereby retained, authorized, and instructed by the District to perform in accordance with the following covenants and conditions, which both the District and the Contractor have agreed upon:

1. **INCORPORATION OF RECITALS.** The recitals stated above are true and correct and are incorporated by reference as a material part of this Agreement.

2. **SCOPE OF SERVICES.** The Contractor shall provide the services described in the Scope of Services attached hereto as **EXHIBIT A** and for the areas identified in the Landscape Maintenance Areas Exhibit attached hereto as **EXHIBIT D** ("**Work**"). The Contractor agrees that the Landscape Maintenance Areas Exhibit attached hereto as **EXHIBIT D** is the District's best estimate of the District's landscape needs, but that other areas may also include landscaping that requires maintenance. The Contractor agrees that the District may, in its discretion, add up to 0.5 acre(s) of landscaping area to the Work, with no adjustment to price, and may add additional acreage of landscaping area to the Work beyond the 0.5 acre(s) using the unit pricing set forth in **EXHIBIT B**. The Contractor shall perform the Work consistent with the presently established, high quality standards of the District, and shall assign such staff as may be required for coordinating, expediting, and controlling all aspects of the Work. Contractor shall solely be responsible for the means, manner and methods by which its duties, obligations and responsibilities are met to the satisfaction of the District. Notwithstanding any other provision of this Agreement, the District reserves the right in its discretion to remove from this Agreement any portion of the Work and to separately contract for such services. In the event that the District

contracts with a third party to install certain landscaping or to otherwise perform services that might otherwise constitute a portion of the Work, Contractor agrees that it will be responsible for any such landscaping installed by the third party, and shall continue to perform all other services comprising the Work, including any future services that apply to the landscaping installed by the third party or to the areas where services were performed by the third party.

3. **MANNER OF CONTRACTOR'S PERFORMANCE.** The Contractor agrees, as an independent contractor, to undertake the Work as specified in this Agreement or any Additional Services Order (see Section 7.c. herein) issued in connection with this Agreement. All Work shall be performed in a neat and professional manner reasonably acceptable to the District and shall be in accordance with industry standards, such as USF, IFAS, etc. The Contractor shall document all Work using the forms attached hereto as part of **EXHIBIT C**. The performance of all services by the Contractor under this Agreement and related to this Agreement shall conform to any written instructions issued by the District.

In the event that time is lost due to heavy rains ("**Rain Days**"), the Contractor agrees to reschedule its employees and divide their time accordingly to complete all scheduled services during the same week as any Rain Days. The Contractor shall provide services on Saturdays if needed to make up Rain Days with prior notification to, and approval by, the District Representatives (defined below).

Contractor in conducting the Work shall use all due care to protect against any harm to persons or property. If the Contractor's acts or omissions result in any damage to property within the District, including but not limited to damage to landscape lighting, irrigation system components, entry monuments, etc., the Contractor shall immediately notify the District and repair all damage – and/or replace damaged property – to the satisfaction of the District.

Contractor shall maintain at all times strict discipline among its employees and shall not employ for work on the project any person unfit or without sufficient skills to perform the job for which such person is employed. All laborers and foremen shall perform all Work on the premises in a uniform to be designed by the Contractor, and shall maintain themselves in a neat and professional manner. No smoking in or around the buildings will be permitted. No Contractor solicitation of any kind is permitted on property.

4. **MONITORING OF SERVICES.** The District shall designate in writing one or more persons to act as the District's representatives with respect to the services to be performed under this Agreement ("District Representatives"). The District Representatives shall have complete authority to transmit instructions, receive information, interpret and define the District's policies and decisions with respect to materials, equipment, elements, and systems pertinent to the Contractor's services. This authority shall include but not be limited to verification of correct timing of services to be performed, methods of pruning, pest control and disease control. The District hereby designates David McInnes, District Manager, to act as the District Representatives. The Contractor shall not take direction from anyone other than the District Representatives (e.g., the Contractor shall not take direction from individual District Board Supervisors, any representatives of any local homeowner's associations, any residents, etc.). The District shall have the right to change its designated representatives at any time by written notice to the Contractor.

The Contractor shall provide to management a written report of work performed for each week with notification of any problem areas and a schedule of work for the upcoming month. Further, the Contractor agrees to meet the District Representatives no less than one (1) time per month to inspect the property to discuss conditions, schedules, and items of concern regarding this Agreement.

If the District Representatives identify any deficient areas, the District Representatives shall notify the Contractor whether through a written report or otherwise. The Contractor shall then within the time period specified by the District Representatives, or if no time is specified within forty-eight (48) hours, explain in writing what actions shall be taken to remedy the deficiencies. Upon approval by the District, the Contractor shall take such actions as are necessary to address the deficiencies within the time period specified by the District, or if no time is specified by the District then within three (3) days and prior to submitting any invoices to the District. If Contractor does not respond or take action within the specified time period, and without limiting the District's remedies in any way, the District shall have the rights to, among other remedies available at law or in equity: fine Contractor One Hundred Dollars (\$100) per day through a reduction in the compensation; to withhold some or all of Contractor's payments under this Agreement; and to contract with outside sources to perform necessary services with all charges for such services to be deducted from Contractor's compensation. Any oversight by the District Representative of Contractor's Services is not intended to mean that the District shall underwrite, guarantee, or ensure that the Services is properly done by Contractor, and it is Contractor's responsibility to perform the Services in accordance with this Agreement.

5. **SUBCONTRACTORS.** The Contractor shall not award any of the Work to any subcontractor without prior written approval of the District. The Contractor shall be as fully responsible to the District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as the Contractor is for the acts and omissions of persons directly employed by the Contractor. Nothing contained herein shall create contractual relations between any subcontractor and the District.

6. **EFFECTIVE DATE.** This Agreement shall be binding and effective as of the date that the Agreement is signed by the last of the Parties hereto, and shall remain in effect as set forth in Section 7, unless terminated in accordance with the provisions of this Agreement.

7. **COMPENSATION; TERM.**

- a. Work under this Agreement shall begin _____, 2026 and end September 30, 2027 ("**Initial Term**"), unless terminated earlier pursuant to the terms of this Agreement. At the end of the Initial Term, this Agreement shall annually renew with the same terms set forth herein, in the District's sole discretion.
- b. As compensation for the Work, the District agrees to pay Contractor Sixty-Six Thousand Dollars (\$66,000.00) per year, in monthly amounts of Five Thousand Five Hundred Dollars (\$5,500.00). Upon each renewal the Contract Amount will increase by 3% annually. Such compensation covers only the items specified in Parts 1, 2, 3 and 4 of the Contractor's Proposal Form – Part IV – Pricing ("**Contract Amount**"). Additionally, for the services specified in Parts 5 and 6 of the Contractor's Proposal Form – Part IV – Pricing, attached hereto as **EXHIBIT B**, and only after applying the provisions of Sections 7.c. and 7.d. below, the District agrees to pay Contractor pursuant to Section 7.d. below for such actual services rendered using the pricing specified in the Contractor's Proposal Form – Part IV – Pricing. All additional work or services, and related compensation, shall be governed by Section 7.c. of this Agreement.
- c. *Additional Work.* Should the District desire that the Contractor provide additional work and/or services relating to the District's landscaping and irrigation systems, such additional work and/or services shall be fully performed by the Contractor after prior approval of a required Additional Services Order ("**ASO**"). The Contractor agrees that the District shall not be liable for the payment of any additional work and/or services unless the District first authorizes the Contractor to perform such additional work and/or services through an authorized and fully executed change order. The Contractor shall be compensated for such agreed additional work and/or services based upon a

payment amount derived from the prices set forth in the Contractor's proposal pricing (attached as part of **EXHIBIT B**). Nothing herein shall be construed to require the District to use the Contractor for any such additional work and/or services, and the District reserves the right to retain a different contractor to perform any additional work and/or services.

- d. *Payments by District.* The Contractor shall maintain records conforming to usual accounting practices. Further, the Contractor agrees to render monthly invoices to the District, in writing, which shall be delivered or mailed to the District by the fifth (5th) day of the next succeeding month. Each monthly invoice shall contain, at a minimum, the District's name, the Contractor's name, the invoice date, an invoice number, an itemized listing of all costs billed on the invoice with a description of each sufficient for the District to approve each cost, the time frame within which the services were provided, and the address or bank information to which payment is to be remitted. Consistent with Florida's Prompt Payment Act, Section 218.70 et al. of the Florida Statutes, these monthly invoices are due and payable within forty-five (45) days of receipt by the District.
- e. *Payments by Contractor.* Subject to the terms herein, Contractor will promptly pay in cash for all costs of labor, materials, services and equipment used in the performance of the Work, and upon the request of the District, Contractor will provide proof of such payment. Contractor agrees that it shall comply with Section 218.735(6), Florida Statutes, requiring payments to subcontractors and suppliers be made within ten (10) days of receipt of payment from the District. Unless prohibited by law, District may at any time make payments due to Contractor directly or by joint check, to any person or entity for obligations incurred by Contractor in connection with the performance of Work, unless Contractor has first delivered written notice to District of a dispute with any such person or entity and has furnished security satisfactory to District insuring against claims therefrom. Any payment so made will be credited against sums due Contractor in the same manner as if such payment had been made directly to Contractor. The provisions of this Section are intended solely for the benefit of District and will not extend to the benefit of any third persons, or obligate District or its sureties in any way to any third party. Subject to the terms of this Section, Contractor will at all times keep the District's property, and each part thereof, free from any attachment, lien, claim of lien, or other encumbrance arising out of the Work. The District may demand, from time to time in its sole discretion, that Contractor provide a detailed listing of any and all potential lien claimants (at all tiers) involved in the performance of the Work including, with respect to each such potential lien claimant, the name, scope of Work, sums paid to date, sums owed, and sums remaining to be paid. Contractor waives any right to file mechanic's and construction liens.

8. **INSURANCE.**

- a. At the Contractor's sole expense, the Contractor shall maintain throughout the term of this Agreement the following insurance:
 - i. **WORKERS' COMPENSATION/EMPLOYER'S LIABILITY:** Contractor will provide Workers' Compensation insurance on behalf of all employees who are to provide a service under this Contract, as required under applicable Florida Statutes AND Employer's Liability with limits of not less than \$100,000.00 per employee per accident, \$500,000.00 disease aggregate, and \$100,000.00 per employee per disease.

If the Contractor fails to have secured and maintained the required insurance, the District has the right (without any obligation to do so, however), to secure such required insurance in which event, the Contractor shall pay the cost for that required insurance and shall furnish, upon demand, all information that may be required in connection with the District's obtaining the required insurance.

In the event that any indemnification, defense or hold harmless provision of this Contract is determined to be unenforceable, the provision shall be reformed to give the provision the maximum effect allowed by Florida law and for the benefit of the Indemnitees. The Contractor shall ensure that any and all subcontractors, and suppliers, include this express paragraph for the benefit of the Indemnitees. This section shall survive any termination of this Agreement.

10. LIMITATIONS ON GOVERNMENTAL LIABILITY. Nothing in this Agreement shall be deemed as a waiver of immunity or limits of liability of the District beyond any statutory limited waiver of immunity or limits of liability which may have been adopted by the Florida Legislature in Section 768.28, Florida Statutes, or other statute, and nothing in this Agreement shall inure to the benefit of any third party for the purpose of allowing any claim which would otherwise be barred under the Doctrine of Sovereign Immunity or by operation of law.

All plants that fail to survive under the guarantee shall be replaced as they fail with the same type and size as originally specified. Contractor further warrants to the District those warranties which Contractor otherwise warrants to others and the duration of such warranties is as provided by Florida law unless longer guarantees or warranties are provided for elsewhere in the Agreement (in which case the longer periods of time shall prevail). Contractor shall replace or repair warranted items to the District’s satisfaction and in the District’s discretion. Neither final acceptance of the services, nor monthly or final payment therefore, nor any provision of the Agreement shall relieve Contractor of responsibility for defective or deficient materials or services. If any of the services or materials are found to be defective, deficient or not in accordance with the Agreement, Contractor shall correct remove and replace it promptly after receipt of a written notice from the District and correct and pay for any other damage resulting therefrom to District property or the property of landowners within the District. Contractor hereby covenants to the District that any work product of the Contractor shall not call for the use nor infringe any patent, trademark, services mark, copyright or other proprietary interest claimed or held by any person or business entity absent prior written consent from the District.

12. **ENVIRONMENTAL ACTIVITIES.** The Contractor agrees to use best management practices, consistent with industry standards, with respect to the storage, handling and use of chemicals (e.g., fertilizers, pesticides, etc.) and fuels. The Contractor shall keep all equipment clean (e.g., chemical sprayers) and properly dispose of waste. Further, the Contractor shall immediately notify the District of any chemical or fuel spills. The Contractor shall be responsible for any environmental cleanup, replacement of any turf or plants harmed from chemical burns, and correcting any other harm resulting from the Work to be performed by Contractor.

13. **ACCEPTANCE OF THE SITE.** By executing this Agreement, the Contractor agrees that the Contractor was able to inspect the site prior to the time of submission of the proposal, and that the site is consistent with local community standards and that there are no deficiencies. The Contractor agrees to be responsible for the care, health, maintenance, and replacement, if necessary, of the existing landscaping and irrigation system, in its current condition, and on an "as is" basis. No changes to the compensation set forth in this Agreement shall be made based on any claim that the existing landscaping and/or site conditions were not in good condition.

14. **TAX EXEMPT DIRECT PURCHASES.** The parties agree that the District, in its discretion, may elect to undertake a direct purchase of any or all materials used for the landscaping services, including but not limited to the direct purchase of fertilizer. In such event, the following conditions shall apply:

- (a) The District may elect to purchase any or all materials directly from a supplier identified by Contractor.
- (b) Contractor shall furnish detailed Purchase Order Requisition Forms ("Requisitions") for all materials to be directly purchased by the District.
- (c) Upon receipt of a Requisition, the District shall review the Requisition and, if approved, issue its own purchase order directly to the supplier, with delivery to be made to the District on an F.O.B. job site basis.
- (d) The purchase order issued by the District shall include the District's consumer certificate of exemption number issued for Florida sales and use tax purposes.
- (e) Contractor will have contractual obligations to inspect, accept delivery of, and store the materials pending use of the materials as part of the landscaping services. The contractor's possession of the materials will constitute a bailment. The contractor, as bailee, will have the duty to safeguard, store and protect the materials while in its possession until returned to the District through use of the materials.
- (f) After verifying that delivery is in accordance with the purchase order, Contractor will submit a list indicating acceptance of goods from suppliers and concurrence with the District's issuance of payment to the supplier. District will process the invoices and issue payment directly to the supplier.
- (g) The District may purchase and maintain insurance sufficient to cover materials purchased directly by the District.

(h) All payments for direct purchase materials made by the District, together with any state or local tax savings, shall be deducted from the compensation provided for in this Agreement.

15. **COMPLIANCE WITH GOVERNMENTAL REGULATION.** The Contractor shall keep, observe, and perform all requirements of applicable local, State and Federal laws, rules, regulations, ordinances, permits, licenses, or other requirements or approvals. Further, the Contractor shall notify the District in writing within five (5) days of the receipt of any notice, order, required to comply notice, or a report of a violation or an alleged violation, made by any local, State, or Federal governmental body or agency or subdivision thereof with respect to the services being rendered under this Agreement or any act or omission of the Contractor or any of its agents, servants, employees, or material men, or appliances, or any other requirements applicable to provision of services. Additionally, the Contractor shall promptly comply with any requirement of such governmental entity after receipt of any such notice, order, request to comply notice, or report of a violation or an alleged violation.

16. **DEFAULT AND PROTECTION AGAINST THIRD PARTY INTERFERENCE.** A default by either party under this Agreement shall entitle the other to all remedies available at law or in equity for breach of this Agreement, which may include, but not be limited to, the right of damages, injunctive relief, and/or specific performance. Nothing contained in this Agreement shall limit or impair the District's right to protect its rights from interference by a third party to this Agreement.

17. **CUSTOM AND USAGE.** It is hereby agreed, any law, custom, or usage to the contrary notwithstanding, that the District shall have the right at all times to enforce the conditions and agreements contained in this Agreement in strict accordance with the terms of this Agreement, notwithstanding any conduct or custom on the part of the District in refraining from so doing; and further, that the failure of the District at any time or times to strictly enforce its rights under this Agreement shall not be construed as having created a custom in any way or manner contrary to the specific conditions and agreements of this Agreement, or as having in any way modified or waived the same.

18. **SUCCESSORS.** This Agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors, and assigns of the Parties to this Agreement, except as expressly limited in this Agreement.

EXHIBIT A

SCOPE OF SERVICES

PART 1

GENERAL LANDSCAPE MAINTENANCE

1) **MOWING** – All grass areas will be mowed on the following schedule:

This schedule estimates that there will be 26 cuts annually. Notwithstanding the above, at no time will the grass (or weeds within turf) be allowed to grow beyond a maximum height of five (5) inches. Each mowing should leave the St. Augustine & Bahia grass at a height of three and one half (3 1/2) to four (4) inches, Celebration Bermuda at a height of three quarter (3/4) to one and one quarter (1 ¼) inches & Zoysia at a height of one (1) to one and one half (1 ½) inches. Rotary Mowers are preferred for heights above one (1) inch. Do not remove more than 1/3 of the height of the leaf blade at any one mowing. All blades shall be kept sharp at all times to provide a high-quality cut and to minimize disease. The DISTRICT requires mowers to be equipped with a mulching type deck. Clippings may be left on the lawn as long as no readily visible clumps remain on the grass after mowing. Otherwise, large clumps of clippings MUST either be collected and removed by the CONTRACTOR **OR** be left to dry out on the lawn for no more than one day and then re-distributed across the lawn. The mulching kit must be left in the “closed” position at all times, specifically when mowing pond banks and all parks. Additionally, when mowing pond banks, mowers must be used in a counter clockwise direction. This is to re-introduce nutrients in the clippings back into the soil system. In case of fungal disease outbreaks, the clippings will be collected until the disease is under control. Contractor will be responsible for line-trimming these areas during each and every mow event. Contractor is to include in his proposal, any and all necessary equipment, protective clothing or any other gear necessary for crews to perform this work. No “extras” will be billed to the District. The CONTRACTOR shall restore any noticeable damage caused by the CONTRACTOR’S mowing equipment within twenty-four hours from the time the damage is caused at his sole cost and expense. Contractor shall be responsible for training all its personnel in the technical aspects of the District’s Landscape Maintenance Program and general horticultural practices. This training will also include wetland species identification as it relates to lake banks & wetland areas. The Contractor shall be held responsible for all damage to wetlands, littoral shelves, mitigation areas and uplands due to mowing/fertilizing, etc. Weekend work is permitted when necessary, upon prior approval.

Pond Mowing - All ponds identified as such on the overall Maintenance Exhibit shall be mowed incorporating the same mowing schedule as the common areas stated above. Line trimming at Bridge entrances water’s edge, control structures, mitered end sections and any other storm water structures shall occur each and every time the pond is mowed. Each mowing shall leave the grass at a height of four (4) to four and one half (4½) inches. This is slightly higher than the mow height in common area Bahia plantings in flatter areas to minimize pond bank erosion. Pond banks will be mowed and trimmed to water’s edge. Careful attention must be paid to mower height on pond banks so as not to scalp at the crest of the lake bank and increase the chances for pond bank erosion. Also, when line trimming to water’s edge, Contractor shall be extremely careful not to scalp at the water’s edge also increasing chances of pond bank erosion. Line trimming height shall be the same as mowing height (if not slightly higher). Contractor shall be careful to keep trimmings from entering water. Excessive clippings shall be hand removed. Mowers must blow all clippings away from pond banks. It is understood that trash debris of any kind and other debris within arm’s reach of water’s edge shall be removed & disposed of by Contractor during every normal service event.

2) EDGING & TRIMMING – All hard-edged areas (curbs, sidewalks, bike paths, trails, etc.) shall be vertically edged at each and every mowing event and soft-edged areas (tree rings, shrub and groundcover bed lines) shall be edged a minimum of every other week. All edging shall be performed to the sole satisfaction of the DISTRICT. Chemical edging shall not be permitted anywhere on property.

AT NO TIME SHALL LAWN BE ALLOWED TO GROW IN AN UNSIGHTLY MANNER. SHOULD THIS OCCUR, CONTRACTOR AGREES TO CORRECT WITHIN TWENTY-FOUR HOURS OF NOTICE BY DISTRICT. CONTRACTOR SHALL COMPLETE ALL LAWN MAINTENANCE ACTIVITIES (MOWING, EDGING, LINE TRIMMING, BLOWING OFF SIDEWALKS, DRIVEWAYS, CURB & GUTTERS, ETC.) IN RELATIVELY SMALL, MANAGEABLE SECTIONS. CONTRACTOR IS NOT TO LEAVE GRASS CLIPPINGS, TRIMMED WEEDS, TURF, DIRT OR DEBRIS ON ANY SURFACES FOR MORE THAN TWO HOURS. PARK SITES, CLUBHOUSES, PARKING LOTS AND ALL OTHER HIGH TRAFFIC AMENITIES ON THE PROPERTY SHALL BE CLEANED UP IMMEDIATELY AFTER MOWING AND EDGING TAKES PLACE. IF A MOWING EVENT IS MISSED, EVERY EFFORT SHALL BE MADE TO PERFORM THE MOWING SERVICE THE SAME WEEK (INCLUDING SATURDAYS WITH PRIOR APPROVAL). IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROVIDE THE DISTRICT A CREDIT FOR FUTURE SERVICES OR ADD A MOWING EVENT TO BE PROVIDED AT A LATER DATE. THE DISTRICT SHALL DETERMINE WHETHER THE CREDIT OR EXTRA MOWING SHALL BE USED.

3) TREE & SHRUB PRUNING – All deciduous trees shall be pruned when dormant to ensure proper uniform growth. All evergreen trees shall be pruned in the early summer and fall to ensure proper growth and proper head shape. Sucker growth at the base of the trees shall be removed by hand continuously throughout the year. Aesthetic pruning shall consist of the removal of dead and/or broken branches as often as necessary to have trees appear neat at all times. Branches will be pruned just outside the branch collar. Contractor is responsible for the removal of all branches and limbs up to a 4" diameter and up to a 15' height to keep them from encroaching onto buildings (including roofs), signage structures, play structures, fences & walls, as well as pruned to prevent street lights and traffic signage from being blocked. Additionally, trees shall be pruned over sidewalks, nature trails, parking lots and roadways so as not to interfere with pedestrians or cars. (This is to include maintaining at all times a minimum of ten to fifteen (10-15) feet of clearance under all limbs depending on location and species of tree but shall vary according to DOT specs.) All moss hanging from trees (as well as all ball moss) shall be removed up to a height of 15' from **all trees** on an as-needed basis. However, during the dormant season, ALL Crape Myrtles shall have ALL mosses removed from the entire tree regardless of height. Crape Myrtles are not to be "hat racked" at any time. Pencil pruning is the preferred method of Crape Myrtle pruning and should be performed after threat of frost has passed. The initial removal of all Spanish and Ball Mosses shall be completed within ninety (90) days of contract commencement.

All shrubs will be pruned as necessary to retain an attractive shape and fullness, removing broken or dead limbs as necessary to provide a neat and clean appearance. Shrubs shall not be clipped into balled or boxed forms unless such forms are required by design. Shrubs shall be pruned in accordance with the intended function of the plant in its present location. Flowering shrubs shall be pruned immediately after the blossoms have cured with top pruning restricted to shaping the terminal growth. All pruning shall be done with horticultural skill and knowledge to maintain an overall acceptable appearance consistent with the current aesthetics of District property. The Contractor agrees that pruning is an art that must be done under the supervision of a highly trained foreman and shall make provisions for such supervision. Individual plants pruned into rounded balls or unnatural shapes will not be allowed. Contractor shall sterilize all pruning equipment prior to pruning the next shrub grouping; particularly when fungal diseases are known to be present. All clippings and debris from pruning will be carted away at the time pruning takes place. It is of utmost importance that all plant material within clear site lines and visibility triangles at roadway intersections and medians is maintained at or below the required heights. It is the Contractor's responsibility to bring to the attention of the District all areas that are not in compliance. If pruning will bring the area into compliance, then the Contractor, after conferring with District's

representative, will proceed with the pruning activity. However, if pruning will NOT bring the area into compliance, perhaps due to permanent existing grades, then another solution will need to be proposed and executed. Contractor will also be responsible to keep mulch pulled away from the base of ALL landscape lights at ALL times, not just after a mulching event. This is specific to LED with circuit boards in base.

AREAS WHERE WETLANDS ARE ADJACENT TO TURF AREAS (WHETHER ALONG ROADWAYS OR LAKE BANKS) CONTRACTOR IS RESPONSIBLE TO KEEP ALL WETLAND MATERIAL CUT BACK AT ALL TIMES AND NOT LET THIS MATERIAL REDUCE THE SIZE OF THE TURF AREA.

Palms - All palms (regardless of height) shall receive pruning as often as necessary to appear neat and clean at all times. This includes the removal of brown and/or broken fronds and inflorescence. Removal of green or even yellowing fronds is unnecessary and pruning palms above the nine o'clock – three o'clock line is prohibited. Fronds should be removed only once they turn brown or become broken or are disrupting flow of pedestrian/vehicular traffic or are hanging on architectural structures. Fruit pods shall be removed prior to development. Tarpaulins shall be used in areas where date palms and other palm fruits may stain sidewalks & pavement including, but not limited to, pool decks. Contractor shall be responsible for the removal of all palm fruit stains. Contractor shall sterilize all pruning equipment prior to pruning the next palm, paying careful attention when pruning Medjool, Sylvester, Reclinata and Canary Palms.

4) WEEDS & GRASSES – All groundcover, turf areas, shrub beds & tree rings shall be kept reasonably free of weeds and grasses, and be neatly cultivated and maintained in an orderly fashion at all times. This may be accomplished by carefully applied applications of pre & post emergent herbicides as part of fertilizer mixtures and post-emergent herbicide spot treatments on an as-needed basis. Condition of turf is to be determined by the DISTRICT at its sole discretion. All shrub and bed areas shall be maintained each mowing service by removing all weeds, trash and other undesirable material and debris (leaf and other) to keep the area neat and tidy. This is to be accomplished through hand pulling or the careful application of a post-emergent herbicide.

AT NO TIME SHALL POST-EMERGENT HERBICIDES BE PERMITTED WHEN WEEDS HAVE ESTABLISHED THEMSELVES AS TO DOMINATE PLANTING BEDS. HAND PULLING MUST BE PERFORMED.

NON-SELECTIVE, POST-EMERGENT HERBICIDES SHALL NEVER BE USED TO CONTROL WEED/SOD GROWTH AROUND STRUCTURES OF ANY TYPE (I.E. STREET SIGNS, UTILITY BOXES, STREET LIGHTS, PAVEMENT, TREE RINGS, ETC.) THE FIRST OFFENSE WILL RESULT IN A VERBAL WARNING; THE SECOND OFFENSE WILL RESULT IN A SECOND VERBAL WARNING AND THE BOARD OF SUPERVISORS FOR THE DISTRICT WILL BE NOTIFIED; THE THIRD OFFENSE MAY TERMINATE THIS CONTRACT FOR CAUSE AT THE DISTRICT'S DISCRETION. CONTRACTOR WILL BE HELD RESPONSIBLE FOR THE REPLACEMENT OF ALL TURF DAMAGED BY THE APPLICATION OR OVERSPRAY OF HERBICIDES (SELECTIVE OR NON-SELECTIVE).

The CONTRACTOR shall be responsible for the replacement of ornamental plants killed or damaged by herbicide application. All fence lines shall be kept clear of landscape shrubs growing through, weeds, undesirable vines and overhanging limbs.

5) MAINTENANCE OF PAVED AREAS – All paved areas (including, but not limited to, pool deck pavers, other paver surfaces, sidewalk expansion joints, curb and gutters, curb and gutter expansion joints, bike lane edges along roadways) shall be kept weed & debris free. This may be accomplished by mechanical means (line trimmer) or by applications of post/pre-emergent herbicides. Weeds greater than two (2) inches in height or width shall be pulled from paved areas, not sprayed. No sprays with dyes may be used on any paved areas.

Contractor is not to use non-selective herbicides to eradicate weeds in curblin expansion joints where the chemical can travel back into the turf causing regularly spaced dead patches behind the curbs and sidewalks.

6) CLEAN UP – At no time will CONTRACTOR leave the premises after completion of any work in any type of disarray. All clippings, trimmings, debris, dirt or any other unsightly material shall be removed promptly upon completion of work. CONTRACTOR shall use his own waste disposal methods, never the property dumpsters. Grass clippings shall be blown off sidewalks, streets and curbs within a relatively short time frame and are not to be left for more than two hours, unless otherwise noted above. Also grass clippings shall be blown into turf areas, never into mulched bed areas or tree rings as these are to be maintained free of grass clippings. Grass clippings at highly trafficked areas (i.e., tennis courts, clubhouse sidewalks, pool areas, walking trails, etc.) shall be blown off immediately after mowing and edging have taken place. **NO CLIPPINGS SHALL BE BLOWN DOWN CURB INLETS.**

7) REPLACEMENT OF PLANT MATERIAL – Trees and shrubs in a state of decline should immediately be brought to the attention of the DISTRICT. Dead or unsightly plant material shall be removed upon notification of the DISTRICT. CONTRACTOR shall be responsible for replacement if due to his negligence. New plant material shall be guaranteed for a period of one (1) year for trees and ninety (90) days for shrubs, ground cover and lawn after final acceptance.

PART 2

For purposes of bidding and until a soil test is provided to indicate otherwise, all turf shall be fertilized according to the following IFAS Guidelines for a high maintenance level for south Florida turf: (per GIBMP guidelines and University of Florida IFAS Extension, south Florida is determined by anything south of a line running east-west from coast to coast through between Tampa & Vero Beach.)

Prior to final fertilization selection, a complete soil test should be performed to test for soil pH as well as N, P & K levels. Should change be of merit, the Contractor shall notify the District in writing prior to the implementation of such change. At times environmental conditions may require additional applications of nutrients, augmenting the above fertilization programs to ensure that turf areas are kept uniformly GREEN, healthy and in top condition. It shall be the responsibility of the contractor to determine specific needs and requirements and notify the resident project representative when these additional applications are needed.

Fertilizers containing iron shall be immediately removed from all hard surfaces to avoid staining before the sprinklers are activated after application of the fertilizer. Any stains caused by a failure to do so will be the responsibility of the contractor to remove.

Fertilizer shall be applied in a uniform manner, based on soil samples conducted at least annually. If streaking of the turf occurs, correction will be required immediately at no additional cost to owner. Fertilizer shall be swept/blown off of all hard surfaces onto lawns or beds in order to avoid staining. **IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO REMOVE ANY STAINS FROM ANY HARD SURFACES ON THE PROPERTY CAUSED BY THEIR MISHANDLING OF FERTILIZER.** Fertilizer shall not be applied within ten (10) feet of the landward extent of any surface water. Spreader deflector shields are required when applying fertilizer by use of any broadcast or rotary spreader. Deflector shields must be positioned such that fertilizer granules are deflected away from all impervious surfaces and surface waters.

All Palms shall receive 1 ½ pounds of 8N-2P2O5-12K2O+4Mg with micronutrients per 100 SF of palm canopy four times per year (March, June, September & November). 100% of the N, K & Mg **MUST** be in slow release form. All micronutrients must be in water soluble form. Fertilizer shall be broadcast evenly under the dripline of the canopy but must be kept at least 6" from the palm trunk.

Fertilizer shall not be billed equally on a monthly basis, but invoiced the month after application.

CONTRACTOR shall provide the DISTRICT with all fertilizer analysis tags from the fertilizer in order to verify correct formulation and quantity. Payment will not be made until correct quantity and formulation has been verified and applied. CONTRACTOR must notify the DISTRICT five (5) working days in advance of the day the property is scheduled to be fertilized. Failure on the part of the CONTRACTOR to so notify the DISTRICT may result in the CONTRACTOR forfeiting any and all rights to payment for the applications made without notification.

PART 3

PEST CONTROL

Insects and Disease in Turf - Insect and disease control spraying in turf shall be provided by the Contractor every month with additional spot treatment as needed. During the weekly inspections the Contractor is responsible for the identification and eradication/control of disease and insect damage including but not limited to: scale, mites, fungus, chinchbugs, grubs, nematodes, fireants, mole crickets, etc. Contractor shall pay for chemicals. Please list all chemicals that you will include in your fertilizer applications in the space allocated for "formula" under the fertilization section in the bid form. Also include the cost of these chemicals as part of the fertilizer application. Any anticipated additional treatments shall be included in the Pest Control portion of the bid form.

Insects and Disease Control for Trees, Palms and Plants - The Contractor is responsible for treatment of insects and diseases for all plants. The appropriate insecticide or fungicide will be applied in accordance with state and local regulations, and as weather and environmental conditions permit. Contractor shall pay for chemicals. There are several afflictions that may be detrimental to the health of many trees and palms. Contractor will be fully responsible in the treatment of such afflictions. At the District's discretion, this may include the quarterly inoculation of all palms susceptible to Lethal Yellowing and/or Texas Phoenix Palm Decline. The cost of these inoculations should be included as a separate line item in your Pest Control price. Contractor is to identify those species of palms susceptible and supply a list of species and quantities with proposal. Each susceptible palm shall receive quarterly injections. Each injection site/valve can be used only twice. The third quarterly injection

requires a new valve and injection site. Contractor is asked to provide cost per injection (material & labor) multiplied by quantity of susceptible palms multiplied by four inoculations per year in bid form. The District reserves the right to subcontract out any and all OTC Injection events. This will not be included in the Contract Amount.

The Contractor is required to inspect all landscaped areas during each visit for indication of pest problems. When control is necessary, it is the responsibility of the Contractor to properly apply low toxicity and target-specific pesticide. If pesticides are necessary, they will be applied on a spot treatment basis when wind drift is a threat.

Careful inspection of the property on each visit is crucial to maintaining a successful program. It is the Contractor's full responsibility to ensure that the person inspecting the property is properly trained in recognizing the symptoms of both insect infestations and plant pathogen damage (funguses, bacteria, etc.). It is also the Contractor's responsibility to treat these conditions in an expedient manner.

It shall also be the Contractor's responsibility to furnish the resident project representative with a copy of the Pest Management Report (a copy of which is included), which he is to complete at every service as well as all certifications (including BMP Certifications) of all pesticide applicators. Contractor shall familiarize himself with all current regulations regarding the applications of pesticides and fertilizers.

If at any time the District should become aware of any pest problems it will be the Contractor's responsibility to treat pest within five (5) working days of the date of notification.

Fire Ant Control - Contractor is required to inspect property each visit for evidence of fire ant mounds and immediately treat upon evidence of active mounds. In small areas control can be achieved by individual mound treatment. Active mounds in larger turf areas will require broadcast application of bait. Contractor shall be responsible to knock down and spread-out soil once mounds are dead.

For informational purposes only, Contractor is asked to provide the cost for the annual application of Top Choice in all finished landscape areas designated as "District Landscape Area" on the Maintenance Exhibit. These areas are indicated with a dark green color. **UNLESS OTHERWISE DIRECTED, ONLY THOSE AREAS COVERED BY AUTOMATIC IRRIGATION ARE TO BE INCLUDED IN THIS NUMBER.** This is not to include lake banks behind the residential properties or between ponds and conservation areas.

Pest Control will not be included as a standard line item in each monthly billing, but shall be invoiced as a separate line item the month after service is rendered.

Pest Control shall be included in the Contract Amount.

PART 4

IRRIGATION SYSTEM MONITORING AND MAINTENANCE

2. Check for proper operation
3. Program necessary timing changes based on site conditions & time DST

4. Lubricate and adjust mechanical components

6. Ensure the proper operation of each automatic rain shutoff device. If none, provide proposal for the installation to be included in the 30-day irrigation audit.

B. Water Sources

1. Visual inspection of water source
2. Clean all ground strainers and filters
3. Test each pump at design capacities weekly; inform District Manager of any problems immediately. This is to minimize the time a water source is down. Contractor shall also confirm weekly that all backflow preventers are on and operating properly, if applicable.
4. Test automatic protection devices

C. Irrigation Systems

1. Manual test and inspection of each irrigation zone in its entirety.
2. Clean and raise heads as necessary
3. Adjust arc pattern and distance for required coverage areas
4. Clean out irrigation valve boxes

D. Report

1. Irrigation operation time
2. Irrigation start time
3. Maintenance items performed
4. General comment and recommendations

The above list is for routine maintenance and adjustment of the existing irrigation system components. Locating and repairing or replacing automatic valves or control wires and irrigation controller or pump repairs as well as other larger scale repairs are to be considered additional items. Contractor shall provide a list of additional charges and pricing for such items other than routine maintenance as a separate price from this bid.

Routine irrigation maintenance is to be completed monthly. Each zone is to be turned on and operated for as long as necessary to verify proper operation. Each head, seal, nozzle and strainer is to be inspected for adjustment and shall be aligned, packed, cleaned and repaired as necessary. Shrubs, groundcovers and turf around sprinkler heads shall be trimmed to maintain maximum clearance at all times for the greatest coverage. It shall be the Contractor's responsibility to ensure all drip tubing is covered with mulch prior to Contractor leaving the property. All below ground repairs including valves, pumps and wiring require an estimate for all such repairs. Upon written approval from Management, Contractor shall proceed. In the event of an emergency, Contractor shall make a diligent effort to contact, with the approximate price or estimate of repairs, Management or their assign prior to making such repair.

Upon execution of the Agreement, Contractor shall assume responsibility for any and all unreported maintenance deficiencies, including parts and labor, associated with the irrigation system of 2 inches or less, to include sprinkler heads, nozzles, drip, main and delivery lines and any associated fittings. Said repairs shall be performed immediately. The District Manager shall be notified what day and time of the week the irrigation tech will be available servicing the community. The Contractor will keep detailed irrigation reports consisting of run times and correct operation of system. A copy of this report will be maintained by the Contractor and a copy delivered to the District Manager or his designee, along with the weekly report. At no time shall the Contractor leave the property knowing of the need for a repair and not reporting it.

Watering schedules shall meet all government regulations, and zone times will be adjusted depending on job conditions, climactic conditions and all watering restrictions of Flagler County or any other governmental agencies. It is the responsibility of the Contractor to ensure the turf and plant material remains healthy. If the Contractor finds that the irrigation system cannot adequately cover the District in the allotted time, it will be the Contractor's responsibility to bring this to the attention of the District representative and apply for a variance. Violations and/or fines imposed by any local or state agency will be deducted from the Contractor's monthly payment.

Emergency service shall be available after normal working hours and an emergency telephone number will be provided to Management or their assign. Broken mainlines and irrigation valves stuck in the "open" position are to be considered emergencies.

Freeze Protection. The Contractor shall describe ability and cost per application to provide freeze protection for pumps/wells.

PART 5

INSTALLATION OF MULCH

After prior approval by the Board of Supervisors, Contractor shall top dress all currently landscaped areas as shown on the maintenance map (landscaped beds, tree rings) with Grade "A" Medium Pine Bark Mulch up to twice per year during the months of April and October. In doing so, Contractor shall ensure that all mulched areas are brought to a minimum depth of three (3) inches after compaction.

Contractor is responsible for all necessary clean up related to this procedure.

Contractor agrees to provide reasonably neat and defined lines along edges of all mulched areas. In addition to the aesthetics of this, it is also done to facilitate mechanical edging of these areas. Additionally, Contractor shall properly trench all bedlines adjacent to concrete surfaces. Trenches shall be 3" deep and beveled. Mulched beds on slopes adjacent to turf shall also be trenched to a depth of 3" & beveled to reduce mulch washout. This procedure has not been practiced in the past and Contractor is to include any additional labor in the cost of the mulch for all trenching. Mulch shall not be piled around tree trunks or bases of plants. Any mulch "volcanoes" around tree trunks shall be corrected immediately at no additional cost to Owner.

Contractor agrees to ensure that mulch caught in plant material will be shaken or blown from plants, so that upon completion there is no plant material left covered with mulch.

If, after installation is complete and it is determined that additional mulch is required to attain the required total depth of 3", sufficient mulch shall be supplied by Contractor at no additional cost to District.

This item will not be included in the contract amount and shall be invoiced separately the month after service is rendered. Contractor shall provide a price per cubic yard and estimated quantities to be installed per top dressing (based on his own field measurements) and shall submit with bid.

The District reserves the right to subcontract out any and all mulching events.
